## Indica Dominant Hybrid

Cake Crasher #2 has a strong earthy aroma with a slight berry accent, and it is as tasty as it is potent! Its dominant terpenes are Limonene, Caryophyllene, and Linalool. Covered in glacial trichomes, CC2 can be described best as a violet hued, icy flower. At Joi we hang dry, hand trim, and cure in stainless steel containers for at least 14 days to ensure a quality finish. Joi PRDs are processed using 100% flower. Packages are filled by hand and include a humidity pack inside. Enjoy!
