

Jellien

#findyourjoi

# Sweet, Gassy

## Indica Dominant Hybrid

Bred by In-House Genetics, Jellien was created by combining Alien Cookies #1 with a backcross of Stardawg (Capulator cut), which was then crossed with Jelly Breath. Jellien buds are above-average density and size, with dark green hues and plenty of orange pistils. Jellien's aromas include sweet custard, gas, and cookie dough, with a slight earthy undertone. At Joi we hang dry, hand trim, and cure in stainless steel containers for at least 14 days to ensure a quality finish. Packages are filled by hand and include humidity packs inside to maintain optimal freshness. Enjoy!
